PROJECTS

Studio Sinners (beta)

[Live Link](#) , [Github Link](#) , [Server Link](#)

Studio Sinners is a premium web platform designed for high-end digital agencies and creative studios.

Date : 23.12.2025 - 16.01.2026

Major Features:

- Developed a hybrid agency platform where frontend developers showcase real websites and UI projects.
- Enabled clients to hire developers based on verified portfolios, design quality, and technical skills.
- Collaborated with developers to deliver client-focused web solutions efficiently.

Technologies Used: Next.js, JavaScript(ES6), Tailwind CSS, Node.js, Express.js, MongoDB, Lenis, Gsap,NextAuth.js

AssetVerse – Corporate Asset Management System (B2B)

[Live Link](#), [Github Link](#), [Server Link](#)

AssetVerse is a B2B SaaS-style HR & Asset Management web application.

Date : 19.12.2025,

Major Features:

- Implemented a secure JWT-based authentication system to manage user access and protect sensitive asset data.
- Integrated a robust asset tracking system that enables real-time monitoring of asset assignments, usage, and availability across the organization.
- Ensured secure, role-based workflows for efficient and controlled asset management.

Technologies Used: React.js , JavaScript, Tailwind CSS, Node.js, Express.js, MongoDB, Lenis, Gsap, Stripe

AI Model Inventory Manager

[Live Link](#),[Github Link](#) , [Server Link](#)

AI Model is a full-stack web application that allows users to **view, manage, and store AI model-related data** efficiently

Date : 02.11.2025 - 25.11.2025

Major Features:

- Built a full-stack AI model marketplace platform enabling users to publish, browse, and purchase AI/ML models with structured metadata and categorization.
- Implemented secure authentication and authorization using Firebase (Email/Password & Google OAuth) with private routes, user profiles, and purchase history tracking.
- Developed a responsive, high-performance dashboard with analytics, data visualization, dark/light themes, and smooth UI animations using React 19, Tailwind CSS, and modern frontend tooling.

Technologies Used: React.js, JavaScript, Tailwind CSS, MongoDB, React Router, Gsap & Framer Motion, Node.js
